DcDropDownList

DcControl.dllVS

:

- SetData()
 - DataTableDataTableIDParentIDParentIDAppendListItems SelectedId
 - ListAppendListItems SelectedId

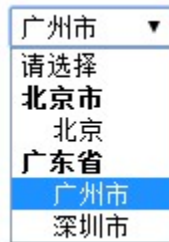

:

```

1  private void DataBind()
2  {
3      List<DcControl.DataList> lists = new List<DcControl.DataList>();
4
5      List<DcControl.DataList.optgroupChild> dlcs = new List<DcControl.DataList.optgroupChild>()
6      dlcs.Add(new DcControl.DataList.optgroupChild()
7      {
8          ItemValue = "1",
9          ItemText = ""
10     });
11     lists.Add(new DcControl.DataList()
12     {
13         optgroupText = "",
14         child = dlcs
15     });
16
17     dlcs = new List<DcControl.DataList.optgroupChild>();
18     dlcs.Add(new DcControl.DataList.optgroupChild()
19     {
20         ItemValue = "2",
21         ItemText = ""
22     });

```

```
23         dlcs.Add(new DcControl.DataList.optgroupChild()  
24         {  
25             ItemValue = "2",  
26             ItemText = ""  
27         });  
28         lists.Add(new DcControl.DataList()  
29         {  
30             optgroupText = "",  
31             child = dlcs  
32         });  
33  
34         DcDropDownList1.SetData(lists, new ListItem("", "0"), 0);  
35     }
```
